Applicant Initiated Interview Request Form

Application No.: 10/748,477 First Named Applicant: Kay L. Grasso
 Examiner: Eliza Squires Art Unit: 3626 Status of Application: Pending

Tentative Participants:

(1) Eliza Squires (2) Ashley Lindsey
 (3) _____ (4) _____

Proposed Date of Interview: 08/03/2009 Proposed Time: 2:00 PM EST AM/PM

Type of Interview Requested:

(1) ☒ Telephonic (2) ☐ Personal (3) ☐ Video Conference

Exhibit To Be Shown or Demonstrated: ☐ YES ☒ NO

If yes, provide brief description: _____

Issues To Be Discussed

Issues (Rej., Obj., etc)	Claims/ Fig. #s	Prior Art	Discussed	Agreed	Not Agreed
(1) <u>101</u>	<u>1, 26</u>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(2) <u>112</u>	<u>1-7, 46</u>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(3) <u>102</u>	<u>1, 26, 46</u>	<u>Miller</u>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(4) _____	_____	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

☐ Continuation Sheet Attached

Brief Description of Argument to be Presented:

Applicants representatives request an interview to discuss the above rejections and differences between the
 claimed invention and the cited art. (Proposed amendments attached for discussion purposes only)

An interview was conducted on the above-identified application on _____

NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.

This collection of information is required by 37 CFR 1.133. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 21 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.
 If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

PROPOSED AMENDMENTS
FOR DISCUSSION PURPOSES ONLY

Application No. 10/748,477

1. A computer-implemented method in a computer system for preventing one or more immunizations from being administered to a person too early, the method comprising:

receiving from a clinician, utilizing a first computer process, an
[[the]] immunization[[s]] to be administered to a person, wherein the
immunization is input by the clinician during a clinical visit with the
patient;

in response to receiving the immunization to be administered
during the clinical visit, determining, utilizing a second computer process,
whether it is too soon to administer the immunization; and

based on a determination that it is too soon to administer the
immunization, displaying a warning if so, outputting information that the
immunization is being administered too soon,

wherein the first and second computer processes are executed
utilizing one or more computing devices.

26. A computer system including one or more computer-readable
storage media having computer-executable modules stored thereon in a computerized
environment for preventing one or more immunizations from being administered to a
person too early, the computer-executable modules system comprising:

a receiving module for receiving from a clinician the immunization[[s]] to be administered to a person during a clinical visit, wherein the immunization is received from the clinician during the clinical visit;

a determining module for determining whether it is too soon to administer the immunization in response to receiving the immunization to be administered from the clinician during the clinical visit; and

a displaying ~~an outputting~~ module for displaying a warning ~~outputting information~~ that the immunization is being administered too soon.

46. A computer-readable medium having computer-executable instructions for performing a method for preventing one or more immunizations from being administered to a person too early, the method comprising:

receiving from a clinician an [[the]] immunization[[s]] to be administered to a person; wherein the immunization is input by the clinician during a clinical visit with the patient;

in response to receiving the immunization to be administered to the person during the clinical visit, determining whether it is too soon to administer the immunization during the clinical visit; and

based on a determination that it is too soon to administer the immunization, displaying a warning if so, ~~outputting information~~ that the immunization is being administered too soon, wherein the warning is a first pop-up warning window;

based on a determination this it is not too soon to administer the immunization, determining whether the immunization will cause an adverse reaction to the person;

upon determining that the immunization will cause an adverse reaction, displaying a warning that the immunization will cause an adverse reaction via a second pop-up warning window; and

upon determining that the immunization will not cause an adverse reaction, displaying a message that the immunization may be administered during the clinical visit.
